DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-30 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

With respect to Claims 1 22, and 27, the method and system do not produce a tangible result. It is unclear where the value for the sensitivity parameter is being stored, displayed, or used in any tangible manner.

With respect to Claim 15, the method does not produce a tangible result. It is unclear how the test result is being stored, displayed, or used in any tangible manner.

With regards to Claim 25, the instructions are not embedded in a computer-readable medium. **Note:** If the word encoded is changed to comprising, the 35 U.S.C. 101 rejection would be removed.

For further assistance in overcoming the 35 U.S.C. 101 rejections set forth in this office action, please review the following OG notice:
